How you feeling?
Give thanks and breathe it in
Give thanks and breathe it in
'Cause we're blessed

Blessed 2 have another moment
Some more time spent
Some more minds to get into
Blessed 2 have another daydream, another maybe,
yeah

Forget the bang or the reload, the efforts to decode
This life is a long road, the objects to be bold
The lessons are retold, the prophets are resold
The mercy is so cold, we service the download

So, write this down now, brand new sound now
Mix it right now, keep me loud now
I wanna ignite the solar of your plexus
I see you're restless so take this and trust us

Chances are there's still a chance
Forever is your state of trance
Give thanks breathe it in

So blessed 2 have another moment
Some more time spent
Some more minds to get into
Blessed 2 have another daydream, another maybe,
yeah

Blessed 2 have another moment
Some more time spent
Some more minds to get into
Blessed 2 have another daydream, another maybe,
yeah

See this is for the takers and the offerings
The barter and the bargaining
The movers and the sitting in
The wheel it out and come again

We're sending you a part of we
Knowing what will be will be
We giving you a melody
Marketing a harmony

So, write this down now, brand new sound now
Mix it right now, keep me loud now
I wanna ignite the solar of your plexus
I see you're restless so take this and trust us

Believe that you can make believe
You know who you're supposed to be
Give thanks breathe it in

So blessed 2 have another moment
Some more time spent
Some more minds to get into
Blessed 2 have another daydream, another maybe,
yeah

Blessed 2 have another moment
Some more time spent
Some more minds to get into
Blessed 2 have another daydream, another maybe,
yeah

Blessed 2 have another moment
Some more time spent
Some more minds to get into
Blessed 2 have another daydream, another maybe,
yeah

Three stages believe
Understand make believe
Inner stand chance
Over stand there's still a chance

You feel me, you hear me
You see we, listen

Granted that I have one more day
To say what I have to, to say
Granted that I still remain
To share what is my song, my song, my song

So blessed 2 have another moment
Some more time spent
Some more minds to get into
Blessed 2 have another daydream, another maybe,
yeah

Blessed 2 have another
So blessed, yeah
