When I think of you
(Smile)
You make me smile
(Sometimes U make me smile)
(I can feel you, I'm missing you)

Where is my heaven? Where can it be?
How do I get there? Do I believe?
Where is my sunshine? Where is your light?
I wanna see you, so you can make me smile

Sometimes U make me smile
Sometimes U make me smile
Sometimes U make me smile
I can feel you, I'm missing you
(Missing you)

The most fragile part of me
Nurses our strongest connection
You live in my memory with a philosophy
That now offers me completion

I'm so well and it's strange to be
I'm torn by misdirection, you're my ambassador
You personify my admiration, so beautiful
I live for you as you live for me

Sometimes U make me smile
(You make me smile)
Sometimes U make me smile
(You make me smile)
Sometimes U make me smile
I can feel you, I'm missing you
(Missing you)

This is such a happy ever after
You traveled miles and now we're past the finishing
line
We're starting on time, my music wears your name
If they knew where to look, they'd find it

You've showed me

I am I because you be forever so magnificent
The most amazing story I ever told
So much more to be written

Sometimes U make me smile
(Thank you)
Sometimes U make me smile
(You make me smile)
Sometimes U make me smile
I can feel you, I'm missing you my love

My love
(My love)
Love, missing my love
I know I can't hear you
(I hear you)
I'm missing you, missing you

I only pray my skin be as soft as yours
My wisdom flow so fluidly from my mind
My eyes read so truly of my spirit
And my laughter speak the clarity of time

You were once the I that's now missing you
You were once the baby born
And you had dreams of making a difference in the
world
My journey was formed

I feel you
(I feel you)
I hear you
(I hear you)
I see you
(I see)
I believe in you
(I be)

But I cry
(I)
Oh I cry
(I)
Oh my light
(My light)
My light

I feel you
(I feel you)
I hear you
(I hear you)
I see you

(I see)
I believe in you
(I be)

But I cry
(I)
Oh I cry
(I)
My light
(My light)
My light
(My light)

I feel you
(I feel you)
I hear you
(I hear you)
I see you
(I see)
I believe in you
(I be)

But I cry
(I)
Oh I cry
My light
(My light)
My light
