Andromeda, Antares
Orione, Proxima Centauri

It's a kosmiklove

kosmiklove, ko ko ko-smiklove....
kosmiklove, ko ko ko-smiklove....

Looks like we're in heaven
shooting up above
on a rocket to the future
to look for kosmiklove
we are the people of the future
callin' starship "Dove"
will you let us be your teacher?
and teach you kosmiklove

It' a kosmiklove.

kosmiklove, ko ko ko-smiklove....
kosmiklove, ko ko ko-smiklove....

We are the people of the future
callin' starship "Dove"
will you let us be your teacher?
and teach you kosmiklove

We hear the sound of someone callin'
voices from a star
it's the signal we've been waiting
a message from afar
