Heroin.
LSD.
Cocaine.
Ecstasy.

One day I was walkin' the street with my brother,
with the spliff in his hand you know what I mean,
I asked the brother "what's going on in your head?",
"do you become a mother fucker bis had?" no no no
no,
I don't want you to become a mother fucker bastard
no!

Nous avons tous besoins de protection,
bonnes actions, alimentation
et non les illusions.

L'utilisation superstitieuse des amulettes et porte -
bonheurs que,
certains se portent dessus, dissuade plutôt d'affronter
les difficultés,
et encourage ? avoir la chance comme la panac?. Le
pouvoir est ?gal ?,
vouloir, c'est pouvoir, un oublie voulu
