### "If i would ever fall in love again"

Visit "[If i would ever fall in love again](#)" on [MotoLyrics.com](http://MotoLyrics.com)

It's the last day of summer  
Our last day together  
When will I see you again  
Maybe you could write me then

You'll meet some pretty faces  
You'll be in higher places  
Don't let them break your heart  
Don't let them hurt you  
Don't let them change you

Refrain:

If I would ever fall in love again it would be with you  
Still I don't understand that we are through  
If I would fall in love again it would be with you  
If you ever need a friend I'm there for you  
Say you miss me too  
Say you miss me too

Don't ask me I'm okay  
You've chosen to go your way  
You made it clear right from the start  
No one's gonna steal your heart

It's the last call you're leaving  
I have this certain feeling  
We will never be the same  
But before you go  
There's one thing that you should know

Refrain

If I would ever fall in love again  
Still I don't understand  
If I would ever fall in love again  
If you ever need a friend I'm there for you  
Say you miss me too  
Say you miss me too
