"Stay"

Visit "[Stay](#)" on MotoLyrics.com

This seat feels so empty without your arms
And the coldness that comes when you're gone,
surrounds

Oh no stay for a while
Oh no we'll be alright

Refrain 2x:

Without you my world falls to pieces
Without you I feel so defeated

I know that I hurt you with what I said
I hope that we can win back what we had
Oh no stay for a while
Oh no say we're alright

Refrain

What can I do to make it up to you, tell me now
Is this how it ends, let's just make amends
Oh no stay for a while
Oh no say we're alright

Refrain

Stay for a while 2x
