

## Florence Warner "Hello Love"

Visit "[Hello Love](#)" on [MotoLyrics.com](https://MotoLyrics.com)

It's good to see you  
You've been gone for so long  
Tried to find you  
But my reason went wrong

Doesn't matter  
No one cares anymore  
I wish you'd come by  
When I needed you before

Chorus  
Hello love  
Where you've been  
I tried to start without you  
But I lost it in the wind  
Hello love  
Come on in  
I sure could use a friend

To tell me how to start again

But now it's over  
Wasnt much we could do  
We might have made it last  
If we started out with you

But I know now  
We're a part of a trend  
We started breaking rules  
Even you could never mend

Chorus

It's good to see you  
You've been gone for so long
