

## Flotsam & Jetsam

### "I Believe"

Visit "[I Believe](#)" on MotoLyrics.com

I believe there's a storm comin down, and we're all in  
over our heads

I believe that we'll all hit ground, and may even wind  
up dead

I believe in a chance to survive, no matter what the  
experts said

I can tell there's something goin down, I can feel it,  
I can feel it

I believe, I believe  
I believe, but I don't know what

I believe that a chance to survive, depends on where  
you put your head  
And I know there's something going wrong, I can Feel, I  
can feel, I can feel it

I believe, I believe  
I believe, but I don't know what

I believe there's a safe way out, where no one has to  
get hurt  
Like the hand of God comin down, and lifting you out  
by  
your shirt  
I believe if we don't look out, we'll end up face in  
the dirt  
I can see there's something goin on, I can feel, I can  
feel, I can see it,

I believe, I believe  
I believe, but I don't know what
