All I have to say (have to say)  
Is don't get up on board  
Cause what I have with me (have with me)  
Is what I unfold

All the self pity (self pity)  
Inside your cramped world  
Will keep you stranded  
At the scene (at the scene)

You leave me breathless (keeper keeper)  
Give it back today  
Give it back today  
Give it back today

You cannot breath in a hole

All I have to say (have to say)  
Is don't be the body cold  
A cog in a god machine (god machine)  
A faulty miracle

Slowly drowning, a mind cache, waking out of it?

All I have to say (have to say)  
Is don't get up on board  
Are you waking out of it?  
At the scene (at the scene)

You leave me breathless (keeper, keeper)  
Give it back today  
Give it back today  
Give it back today

You cannot breath in a hole

I feel this holding wastes my time  
The ticking makes me learn  
Time to let go

Give it back today

Give it back today  
Give it back today

I feel your drive draining my life  
This writing makes me spin  
Out of control

You leave me breathless (keeper, keeper)  
Give it back today  
Give it back today  
Give it back today

You cannot breath in a hole

I feel this holding wastes my time  
The ticking makes me learn  
Time to let go

Give it back today  
Give it back today  
Give it back today

I feel your drive draining my life This writing makes me  
spin Out of control
