Is it the way I see the world?  
I'd give it all for your kiss  
If I knew you wanted me  
Like I want you  
You opened up a window  
Now please just release me  
I once knew the sweetest girl  
But she flew away from me, ahh

Whats this space between us?  
Whats this space between us?

Is this the way I see the world?  
I lost myself and it's you I miss  
I would drown a thousand years  
Waiting for you  
You answered all my daydreams  
Now please just wake me out of this  
I once knew the sweetest girl  
But she flew away from me, ahh

Whats this space between us?  
Whats this space between us?

I feel my time with you  
Outweighs this nothingness  
So when it's time to say goodbye  
Please don't hide in the wings of a thought  
It's in the way  
In the way of it all  
And you know  
Oh, you know

There's no space between us There's no space  
between us
