"Waterfall"

The time that's awaiting
Is in the wind that is all around
And lately I can see again
Breathe again
To feel alive
We're all able

To free our minds from the ball and chain
To live your life in a better place

Now that I feel it
I can't believe it
And we're all mesmerized

Take me down
Take me down to your glow

Take all the life
To hang on to dreams again
It streams again
Dreams again
It streams again
Waterfall of mine

There's a stage
To free
What you take To dream again
