

Flowing Tears And Withered Flowers "Crystal Dance"

Visit "[Crystal Dance](#)" on MotoLyrics.com

Endless sorrow is running from out tearful eyes
Flowin? down in many rivers
Turning to one in a neverending stream
On it's way down to the wide and endless ocean of
tears
The ocean of time lets all remembrance to our crystal
dance die
The time of waiting that has changed us?
And will separate us forever?

Our crystal dance
We've laughed and we've cried
I was young and didn't know
Our crystal dance

In the summer air we've been enchanted
We walked past the ocean of time
Where we walked our separate ways for this oh so
endless time?
To the ends of this ocean we now have reached
And we cry our endless tears?

Our crystal dance?

This single summer just we danced our crystal dance
And then we lost each other in the eternity of time?
