Arrived at the gate of helplessness  
Standing in this bloody earth in hopeless veils  
I cry in the winds, and remembrance will dwell  
As still the wounds are deep?  
Abandoned and left alone, cursed and acrificed  
Driven away by her pride I'll wait  
Beyond the doors? for a light beyond the doors  
In a frozen, yet lonely time?

Your beauty? and my need  
Your looks? and my silence  
Your image? and my fear  
Your looks, for one last time  
Your image for one last time  
Feeling your kisses on my silent cheeks? just one time  
Touching your blossoms just one time  
Costing your stream just one time? talkin? to you?

The storm of the seasons? destructing me  
And my leaves fall to the ground  
And I revel in my wounds as I feed  
My blood mother earth? I'll fall to my knees

In the shadows I'll remain unseen  
My misery to mother earth? and in loneliness  
I'll die? insignificant and unconscious in this winter  
In a world only I live in?  
-where life's no more worth to live?

At the gates I cry for you  
So I remain unseen in the shadows? in fear?  
The ivy will grow one with my body  
It chains me to your bonds? the ivy of fear?  
-I hate? disgust? mankind? and I love?

And I'll wait at the gate? as the leaves will fall  
To see the light? as the leaves will fall  
That we dance in the gardens of heaven? as the  
leaves?  
Over the mountain, and along the river? as the leaves?  
Another world without harm? as the leaves?
