uuuuuh uuuuuh uuuh (4x)

Well I met you at the blood bank
We were looking at the bags
Wondering if any of the colors
Matched any of the names we knew on the tags

You said see look it that's yours
Stacked on top with your brothers
See how they resemble one anothers?
Even in their plastic little covers

And I said I know it well

That secret that you know
That you don't know how to tell
it f--ks with your honor
And it teases your head
But you know that its good girl
Cause its running you with red.
Then the snow started falling
We were stuck out in your car
You were rubbing both my hands
Chewing on a candy bar
you said ain't this just like the present
To be showing up like this
There's a moon waning crescent
we started to kiss

And I said I know it well

That secret that we know
That we don't know how to tell
I'm in love with your honor
I'm in love with your cheeks
what's that noise up the stairs baby
Is that Christmas morning

And I know it well (8x)
