I got  
One cloud eating up my sun  
I gotta  
Discharge this loaded gun  
I need a  
New way to test my fate  
Cause I'm all  
Stretched out beyond my shape  
You gotta  
Watch out cause talk wont do  
Believe me  
Next thing they re coming after you  
They re coming after you  
Coming after

You, come on everybody wanna learn to move their  
body like  
You, come on everybody wanna learn to move their  
body like  
That

I got  
One cloud eating up my sun  
I gotta  
Discharge this loaded gun  
And I wont stop until I have it all  
They gonna  
Make way or move along  
I need a  
Sick beat to get me through  
Oh I'm a  
Big freak I'll sink my teeth in you  
A taste of this should do  
Just fine, just fine

You, come on everybody wanna learn to move their  
body like  
You, come on everybody wanna learn to move their  
body like  
You, how come there nobody that can do it at the party  
like

You, come on everybody wanna learn to move their  
body like

I'll be  
What you want me  
To be  
If you want it  
I'll be  
Anything you want me  
To be  
Anything you want me x2

I ll be anything you want me

You, come on everybody wanna learn to move their  
body like  
You, come on everybody wanna learn to move their  
body like  
You, how come there nobody that can do it at the party  
like  
You, come on everybody wanna learn to move their  
body like
