

Fluke

"Slow Motion"

Visit "[Slow Motion](#)" on MotoLyrics.com

Still water all I see
No waves serenity
Reflecting peacefully
Looking like the speed for me
Held out I feel no need
No gravity it seems
Suspended here to see
A moment for eternity

Slow motion
I'm getting nowhere fast
Slow motion
Let it last
Let the moment take its time
That I may see and realise

So slow the water falls
See how the water falls
See how the ripple waves
To rise and gently fade away
Frame by frame by frame
Unravelling and unexplained
The mystery unveiled
As I uncover each detail
Freeze like the speed for me
Freeze so that I may see
Freeze time and realise
The sights that lie before your eyes
