Little Suzie cruising for some love and affection  
Arm in arm with everyone been charming the nation  
Cindy picks the wallets for her friends medications  
As willing patient Julie sit and wait for attention

Lucy's got a uniform for every occasion  
Annie's got a gun she says she stole for protection  
As someone in the background screams another  
objection  
Sally turns her back and walks in dissatisfaction

Rudy got a problem, he got too much aggression  
Disregarding everything it's time for attention  
He got Bobby in a bottle, he got Billy in a stetson  
He's got Betty does her best but it's a bad situation

Gina's getting God so she can get up to Heaven

Looking like an Angel in the name of salvation  
Cathy's in a coma that she calls meditation  
As Danny does the Devil now he's left for damnation

Jim's trying hard to learn from every lesson  
Looking to the future and some great expectation  
Nikki's countin' day's until she inherits the mansion  
And all the boys are waiting for a piece of the action

Simon says and Simon does what nobody mentions  
Peter's getting restless lacking all true expressions  
Tommy's undecided he can't make no decisions  
As Joni's in the basement getting bored at the tension
