one day you're gonna ride ahead of yours
that day you're gonna rise above of the occasion
hurt - you know it comes like this, it goes like this
hurt - you know it goes like this it comes like this
i guess the pills don't work and the drinks don't work
in the morning it hurts like cigarette burns
the summer's daft and winter's long

one day you're gonna find a way to
that they you're ride ahead of your vocation
hurt - you know it comes like this, it goes like this
hurt - you know it goes like this it comes like this
i guess the pills don't work and the drinks don't work
in the morning it hurts like cigarette burns
the summers daft and winter's long
