Everything is ending here
After all I have no more to say
And everything is ending here
And after all I have no more to say

I am sick and tired of words
IãfÂ, 've been using them for all these years
Every word I try to say
Seem to end in tears

I am sick and tired of words
IÃfÂ, 've been using them for all these years
Every word I try to say
Seem to end in tears
Seem to end in tears

Seem to end in tears

Everything is ending here
After all I have no more to say
Everything is ending here
After all I have no more to say

After all I have no more to say
To you
