Everybody loves, the way they do
Oh everybody cares, a lot they do
Everybody knows, our love will do
And they'll see through you (x2)
No one ever knows how I love you
No one ever feels like I feel you
No one understand the way you do
And I'll see through you (x2)
Everybody loves the way they do
Oh everybody cares a lot they do
everybody knows our love will do
and they'll see through you
No one ever knows how i love you
no one ever feels like feel you
everybody knows, see through you
