She's raging like a tidal wave
Feelin' like a movie star
Racing down the boulevard
In a water bed
You're gonna crash that purple car
Into a womb of human sweat
So hold on baby i'm not ready yet
Here comes the crush
Or would it hurt you too much?
She's my tidal wave
She's pale white light like a desert sky
Starry eyed with a wounded gaze
She's so brave
She's my tidal wave
Here comes the crush
Or would it hurt you too much?
She's my tidal wave....
