Comical it's been so far the times that  
Led us where we are and all the scars  
That grade the mark  
Some will fade and  
Some will pass by in the dream motorcade  
Cosmical like shooting stars  
Fall apart like crashing cars  
And all the harps play the part  
That catches you off guard  
And breaks your heart  
The crack it makes seem so small  
She don't hear you when you call  
The sands of time my friend  
In the end won't break your fall  
And if you want it all  
I'm sure you're gonna reach  
The top of the bottom  
Carnival of garbage trucks  
Come one day and pick you up  
With no one there to wash your head  
And if you are sinkin'  
Then brother you're gonna wind up dead  
The tracks we make seem so small  
But she don't hear you when you call  
The sands of time my friend  
In the end won't break your fall  
And if you couldn't reach  
You know I'd lift you up without a thought  
And if you want it all  
I'm sure you're gonna reach  
The top of the bottom
