"Get In My Hair"

Whenever I hear someone playing a guitar
I just can't help but think of you
Wherever I am, a cup of morning coffee
Will suffice for me to miss you all day long
All day long

Maybe I oughta have not met you
Cuz you have changed life
You don't know how satisfied I was
Only to keep on staring at you from far,
From really far

* You said Love what you are
But I can't love anything without you

Why do you get in my hair
When I'm trying to wash you away?
Why do you still get in my hair?
Do you want me to live on air?

* repeat
