Once I made a promise that I'd never do no wrong  
But I feel the yearn to love you even though I know it's  
wrong  
You'll have to take my hand and lead me slowly  
through the door  
I'll be wrong in what I'm doin' but I can't refuse  
anymore  
Lead me on and take control of how I feel  
I can't do this on my own it's against my will  
I need love warm and tender in a way I've never known  
If you want me I'll go with you but you'll have to lead me  
on  
[ piano ]  
Lead me on and take control...  
If you want me I'll go with you but you'll have to lead me  
on
