Even if I am smaller than lemon
Even if I am nothing like darkness
I can sing to the sky
There's kinda innocence left
I'm sure it'll never betray me
Cuz it's blue as much as your eyes, yeah!

Even if you are bigger than apple
Even if you are everything like the sun
You can be almost blind
In the rush of dizzy dreaming life
But I'll follow that recklessness
Cuz it's shining as much as your past

Hey! Gimme some more melody
Hey! Answer me in melody
That is all what I want
That is what we can share... la-la-la

Even if I am cheaper than sugar
Even if I am bitter like you honey
We can share all our sorrows
Just stand by me till I end my song
I'll close my eyes and say
That I am as happy as can be

Hey! Gimme some more melody
Hey! Answer me in melody x2
That is all what I want
That is what we can share... la-la-la

We can share the melody... la-la
We can share the melody... la-la x2
La-la
