I've seen better days and thus
Doubt could kill the best in us
And ain't it something
When you got nothing
And you figured it out
While waiting for someone
To take you there
It just ain't fair
When they don't care....
Life will take it out on me

Time will take us all indeed
And ain't it something
When you got nothing
And you figured it out
While waiting for someone
To take you there
It just ain't fair
When they don't care....
