### "Hello from Mars"

Visit "[Hello from Mars](#)" on [MotoLyrics.com](http://MotoLyrics.com)

Time would pass me by if I  
Had never asked you why  
Your eyes were open wide  
That day you saw me cry

I'm not that kind of girl  
Who only dreams of pearls  
Just give me wings of love  
And make it real

Cause I'm not afraid of a blade  
That we need to cross today  
But I'm scared to be shared  
By someone else

Cause this is gonna be  
The day that we will meet  
When heaven comes so down to earth  
To say hello from Mars

My emotions take me high  
They seem to reach the sky  
I still believe we try  
To hit the ground or fly

I'm not afraid of a blade  
That we need to cross today  
But I'm scared to be shared  
By someone else

Cause this is gonna be  
The day that we will meet  
When heaven comes so down to earth  
To say hello from Mars

Cause this is gonna be  
The day that we will meet  
When heaven comes so down to earth  
To say hello from Mars

Life is a mystery

Like a perfect harmony  
No one knows the day when love  
Will come and set you free

Cause this is gonna be  
The day that we will meet  
When heaven comes so down to earth  
To say hello from Mars

Cause this is gonna be  
The day that we will meet  
When heaven comes so down to earth  
To say hello from Mars
