deadline love, i'm seekin' my reflection
bedtime glove, like sweet
sequent perfection
leadwine dove, i'm sinkin'
in this session
suction love, has drawn this match,
the one you want to catch,
i'm soakin in the deadline love....

enzyme tug, resort of last intention
sublime gush, once of loves retention
head sign of, divine intervention
suction love has spawn this match
the one you've got to catch
i'm soakin' in the deadline love....

returning to purity
the missing link of security
the incandescent ambiance
the cradle of the ambulance
the decision of choice
the difference is in your voice
i'd rather hear the siren
in your throat
even if we both go broke
i'm soakin' in the deadline love....
