"People Around You"

Visit "[People Around You](#)" on MotoLyrics.com

People around you, people inside,
People are everywhere, people tonight.
Play on the music, keep on the night,
I wanna see your eyes burning the light.

People around you, people inside,
People are everywhere, people tonight.
Play on the music, keep on the night,
I wanna see your eyes burning the light.
(Burning the light â€¦!)

People around you, people inside,
People are everywhere, people tonight.
Play on the music, keep on the night,
I wanna see your eyes burning the light.

I wanna take you up on over me,
I wanna take you down over the sea.
Now let me take you to the place of (?),
Now you can take me to the other side.

People around you, people inside,
People are everywhere, people tonight.
Play on the music, keep on the night,
I wanna see your eyes burning the light.

I wanna take you up on over me,
I wanna take you down over the sea.
Now let me take you to the place of (?),
Now you can take me to the other side.

I wanna take you up on over me,
I wanna take you down over the sea.
Now let me take you to the place of (?),
Now you can take me to the other side.

(People around you â€¦!)

(People around you â€¦!)
