Slip into the mind and you will find a reckless world  
Too many times I watched you abuse it  
A pain inconceivable makes unpredictable youth never  
talk the truth

All your friends walked far away better get used to it  
Can't remember yesterday got to get out get used to it  
Can't remember yesterday got to get out get you out

Evelyn are you losein' it  
Hanging onto loneliness coming down to hard again  
Head trip to nowhere  
Evelyn are you loosening it  
All the screws are loosening making you go off again

Head trip to nowhere

Slip into the mind altering what's the endless source?  
All the warped designs that you ever wanted  
Evelyn never feared that could hurt the likes of you  
Am I getting through

Evelyn are you loosening' it  
Hanging onto loneliness coming down to hard again  
Head trip to nowhere  
Evelyn are you loosening it  
All the screws are loosening making you go off again  
Head trip to nowhere
