"Pull"

If I took your mind and slowly replaced it with you
What's in my head, you'd see right through lending all
your thoughts so touching my fears
And beliefs on breaking I'd need some truths

Send me down the river
Soak me through my fear send me down the river help
me forget the numbness of you

Why are you always the one to follow my lead into
darkness that can't e cleared
Why are you always the one to notice all rejected
chances to end all my suffering
What'samatter you what'samattter you?
Why do you follow

Pull
And I'm feeling hit Yea I'm feeling down
Will you be the one to pull my mind from the body
And I'm feeling hit yeah I'm feeling down
Will you be the one to pull my tears away?
