The days and nights are growing longer since first you  
said that we must part  
And somehow I just can't forget you I've got pins and  
needles in my heart  
I know not where on earth to find you I don't know how  
or when to start  
I only know I'm here without you and there's pins and  
needles in my heart

I always see your face before me your smile is  
heaven's work of art  
But now you're smiling at another and there's pins and  
needles in my heart  
I know not where on earth to find you...
