After you have known me better and the new wears off  
Will you want me, just as much as you do now?  
After I am your possession, will the thrill be gone?  
Will you want me then, as much as you do now?

How long, does forever mean to you?

Does it mean, you'll always love me? Or is it just a line  
you use?  
After I am yours completely, will you change your  
mind?  
Will you want me, just as much as you do now?

How long, does forever mean to you?  
Will you want me then, as much as you do now?
