No One will fully understand what is really going through my head
Not youâ€¦ not even me.
Everyone tries to criticize and tell me what's up don't they realize? I don't need therapy. I kinda like the way I am. Makes me an Interesting Man.
Cause I don't have to explain my ways. My state of mind gets me through my days. So don't tell me where my conscience lays I don't need it. And I just don't care. I'm tired of hearing authorityâ€¦ always screaming and coming down on me. Go awayâ€¦ don't cross the line. Just turn around and take care of yourself. Put your thoughts and your theories upon the shelf. I'm OKâ€¦ I'm feeling fine. I kinda like the way I am. Makes me an interesting man.

Cause I don't have to explain my ways. My state of mind gets me through my days. So don't tell me where my conscience lays I don't need it. And I just don't care. Don't care what you sayâ€¦ there's no way to change my mind..
