You bring your books along and I can wake up  
You are the sacred one and I'm not like that  
Ma always said I should be someone else  
I'm just myself, I'm just me and if I can't be that then I  
am...

You are my favourite jinx, you're my bad luck charm  
I used to be in love, you used to be alone  
Ma always said I should be just like you  
I'm just myself, I'm just me and if I can't be that then I  
am...

You bring your books along and I can't do that  
You're as safe and one: I'm not like you  
I impress myself, I undress myself  
I'll find myself, I touch me and I am...  
You used to sleep all day, I try to sleep at night  
If I can see you there then I can be all right

Ma always said I should be somewhere else  
I'm just myself, I'm just me and if I can't be that then I  
am...

You bring your books along and I can wake up  
You are the sacred one and I'm not like that  
Ma always said I should be just like you  
I'm just myself, I'm just me and if I can't be that then I  
am...

You bring your books along and I can't do that  
You're as safe and one: I'm not like you  
I impress myself, I undress myself  
I'll find myself, I touch me and I am...
