You better look out if you're standing right in front of
me
'cause I'll run you down before you have even spotted
me
Outta the way, outta the way
I'm coming around
If you're coming with me then
I'll show you what you're gonna be
And if freedom is something that
You have always longed to see
Take this ride with me, you will see
Come with me
I'm driving something you can't stop it
And we will never be the same again
You can tell everyone about it
Get out our way 'cause we're not stopping this thing

Let me know if you want to stay and rot away
That'll be fine but it's not what I would choose for me
Its going to change, going to change
I'm going away
And if you're running with me then
You're in for such a big surprise
Its when you wake up that you're gonna finally realize
All those dreams were real, you will see
Come with me

I'm driving something you can't stop it
And we will never be the same again
You can tell everyone about it
Get out our way 'cause we're not stopping this thing

There's a chance that you still can make a getaway
But you know the time it's getting shorter everyday
Take this ride with me, you will see
Come with me

I'm driving something you can't stop it
And we will never be the same again
You can tell everyone about it
Get out our way 'cause we're not stopping this thing
