"So Close"

Visit ["So Close"](#) on MotoLyrics.com

There is a better way to live our lives
And I must find it if I can
But when I speak of change you look at me strange
Sometimes you just don't understand

So close [so close] yet so far
So close [so close] yet it's au revoir
So close [so close] but it's not the way it seems
So close [so close] but dreaming different dreams

I always try to tell you where I came from
What I believe and who I am
I just can't see how we could ever agree
We always end where we began

So close [so close] yet so far
So close [so close] yet it's au revoir
So close [so close] but it's not the way it seems

So close [so close] but dreaming different dreams

I don't believe in the things you believe I can't stay
Tonight
Can't compromise we must say our goodbyes the
feeling
Isn't right
Although we are far apart I know we've been close
It won't be easy to forget
Our world is upside down and when it's turned round
I won't deny that once we met

So close [so close] yet so far
So close [so close] yet it's au revoir
So close [so close] but it's not the way it seems
So close [so close] but dreaming different dreams

Repeat chorus (x3)
