I'm waiting for you
What else can I do?
You're so far away
When you'll come to stay
At least drop me a line
And I will be fine
I will be relieved
If you still believe

You and I all the time
Keep feeling the same
You and I think it's all right
'Cos we keep again
Thinking of love

A long time has passed
I'll see you at last
I will be so glad
To hear words you said
You said that all of the time
It was your state of mind
You kept on and on
On thinking of love

You and I all the time
Keep feeling the same
You and I think it's all right
'Cos we keep again
Thinking of love

Have you been told
That love can't be sold
If you keep on loving long
loving long, loving long
And keep on, keep on,
keep on, keep on

Thinking of love, thinking of love,
Thinking of love, thinking of love
