this is my will to die  
to end this sorry mess up life  
to end the misery of me  
thats the way it needs to be

it needs to end now  
i don't even care how  
i need to leave this place  
i won't leave in peace

(chores 2x)  
this is my will to die  
its going to happen tonight  
don't want to die tomorrow  
want to end all of my sorrows  
no longer want to be alive  
this is my will to die

wont miss nothing in this world  
wont even miss this girl  
wont miss her no matter what  
cause she is nothing but a slut

this is my will to die  
all because what happen in life  
and this girl is one of them  
thats why im going to do this sin

(repeat the chores 2x)

(ending fades)  
this is my will to die (4x)
