"Okay"

Visit "[Okay](#)" on MotoLyrics.com

I won't be satisfied with okay
And I can't be okay with alright
So point me to the edge of life
I'll stand up on my toes
Stretch my fingers out to there and bring it back here

It's too important for us to forget
We'll unify our thoughts
God will hear and save
God will hear and save us

All together standing up on our toes
Reaching for the freedom they don't know
So catch it as it pours
We know what we need
Don't get tired when you're running back to show them

It's too important for us to forget
We'll unify our thoughts
God will hear and save
God will hear and save us
It's too important for us to forget
We'll unify our thoughts
God will hear and save
God will hear and save us

It's too important for us to forget
We'll unify our thoughts
God will hear and save
God will hear and save us

It's too important for us to forget
We'll unify our thoughts
God will hear and save
God will hear and save us

I won't be satisfied with okay
And I can't be okay with alright
So point me to the edge of life
I'll stand up on my toes
Stretch my fingers out to there and bring it back here
