Pleading cause we prayed for peace tonight  
Bleeding cause you knew the fight was right  
Take my hand, we're almost home  
We can see the fire glow

Save me grace  
I'm sick of saving face  
Will You hold me close?  
You're all I want to know  
Anymore

Wake me up with patience I don't know  
Call me by a name that I love  
Take my hand, we're almost home  
We can see the fire glow

Save me grace  
I'm sick of saving face  
Will You hold me close?  
You're all I want to know

Desperate love has got me where You want  
I surrender  
Take us to the place we can start  
Happy ever after  
Desperate love has got me where You want  
I surrender  
Take us to the place we can start  
Happy ever after  
Happy ever after

Save me grace  
I'm sick of saving face  
Will You hold me close?  
You're all I want to know  
Save me grace  
I'm sick of saving face  
Will You hold me close?  
You're all I want to know  
Anymore
