There is grime on my face
There is crust in my eye
There is no one in this place
But no one said goodbye
This is how i start another day in my kingdom

There is hate in my heart
This is how my day starts
There is blood in my hands
From the murder of a man
This is how i start another day in my kingdom
This is how i start another day in my kingdom

And where is my queen
Shes as gone as can be
She was a fine lookin lady
And she liked to go down on me
And i liked to go down on her too
In indya there's the taj
On good times there was rog
And here look and see
All there is is me
This is how i start another day in my kingdom
This is how i start another day in my kingdom

There are good times to be had
Only insanes really bad
The lord and i agree
Its not too off to be what we are
As long as were royalty
You fuck and what's to do (you fuck!)
Its not your kingdom too
