Whenever I hear someone playing a guitar  
I just can't help but think of you  
Wherever I am, a cup of morning coffee  
Will suffice for me to miss you all day long  
All day long

Maybe I oughta have not met you  
Cuz you have changed life  
You don't know how satisfied I was  
Only to keep on staring at you from far,  
From really far

\* You said Love what you are  
But I can't love anything without you

Why do you get in my hair  
When I'm trying to wash you away?  
Why do you still get in my hair?  
Do you want me to live on air?

\* repeat
