Just to see my holly home
Evil jack he walks alone
Swings a club and stinks something awful
Well give him a painful jawful
Sara walks a slinky strut
Very gorgeous and anxious slut
Has a love scar on her wrist
Well give her our painful fist
Just to see my holly home
Just to see my holly home
We will live just us alone
Safely in our holly home

In come babies one, two, three
Like to bounce them on our knee
Want to stay and grow up with us
Baby stew will surely fill us
Just to see my holly home
Just to see my holly home
We will live just us alone
Safely in our holly home

Pound them down, pound them out
Older ladies scream and shout
Hide their bodies in the reeds
Shallow bed of soil and leaves
Out will grow ideas and laughter
Up will rise our earthly daughter
Water floods and all upon it
Up upon our bloody planet
Now weve ended all whod harm us
No one left here to alarm us
And we live just us alone
Safely in our holly home

Just to see my holly home
Just to see my holly home
We will live just us alone
Safely in our holly home

Just to see my holly home

Just to see my holly home
We will live just us alone
Safely in our holly home
