English Translation

The burning red sunset takes away the words in heart
Time stood still, just like the depth of my feelings.

With a single word, my journey without you begins
tomorrow.

IT'S BITTER LIKE BEER FOR KIDS

You kissed my tiny fingers
I'll never forget you
Even though we're apart
I'll always remember our last kiss
In the beginning, everyone starts out a pure and
innocent BABY
Even though it's a bitter taste, don't get discouraged
and WALK STRAIGHT

You leaving me alone in the middle of the rain is
heartbreaking
I'M LONELY AS FLOATING ICE

You kissed my tiny fingers
I won't forget that warmth
Even though we're apart
I'll always remember your kiss

Even when we didn't understand each other, we can
assure we were like a good story
Who or what can I blame
just don't taint the things we loved

You kissed my tiny fingers
I'll never forget you
I hope whenever we meet again,
we can forget about that last kiss

When you kissed my tiny fingers,
I remember when you cried.
Even though this is the end
I'll never forget the last kiss

I'll never forget

I'll never forget

his kiss

I'll never forget
