We've gotta find a way
We've gotta find a way
We've gotta find a way
We've gotta find a way

We've gotta find a way back to love
We've gotta find a way how to live
We've gotta find a way back to love
We've gotta find a way how to live

There was a time when love watched over us
We've lost the fate somehow and misused the trust
We're bound to lose more than we've bargained for
We need each other now more than before

You gotta stop right now and think about what we're
doin'
You gotta stop right now and think about what you're
losin'

We've gotta find a way back to love
We've gotta find a way how to live
We've gotta find a way back to love
We've gotta find a way how to live

Why not be honest and face the truth?
We've gotta save what's left of our youth
Each other's feelings, we do misuse
Let's try to understand each other's clues

You gotta stop right now and think about what we're
doin'
You gotta stop right now and think about what you're
losin'

We've gotta find a way
We've gotta find a way
We've gotta find a way
We've gotta find a way

We've lost the key to our sweet success

We've lost the way to our happiness
We've lost the key to our sweet success
We've lost the way to our happiness

We've gotta find a way back to love
We've gotta find a way how to live
We've gotta find a way back to love
We've gotta find a way how to live

We've gotta find a way
We've gotta find a way
We've gotta find a way
We've gotta find a way
