I'm here
Out here
I'm sifting through the pieces of your life
And i know
All of your fears
I know that you will on day be my wife
Be my wife
Yeah yeah yeah yeah

Are you now
Or have you ever been afraid
Oh are you now
Or have you ever been afraid
Been afraid

I know
Your face
I cannot seem to get you off my mind
And i see
All of your fears
I know that one day you will be my wife
Kick it

Are you now
Or have you ever been afraid
Oh are you now
Or have you ever been afraid
Been afraid

I see
Your face
And i know all of your fears
