Groove Is Where You Find It  
Groove is where you find it  
Takes time to realize it  
Move in to the middlllle of your mind  
No one can deny it  
The truth is where you find it  
Move in to the middlllle of your mind

Are we just loooooooooosing time  
The earth is getting oooooooooooooold  
Are we just fuuuuuuuusing time  
Orbit round the wooooooooooooorld  
In the middlllle of our minds  
Why are you denying  
The truth is underlying  
Move in to the middlllle of your mind  
Space is still colliding  
Face what you've been hiding  
Groove is in the middlllle of your mind  
Are we just loooooooooosing time  
The earth is getting oooooooooooooold  
Are we just fuuuuuuuuuusing time  
Orbit round the wooooooooooooorld  
In the middlllle of our minds  
"can i ask you a personal question?"

Are we just loooooooooosing time  
The earth is getting oooooooooooooold  
Are we just fuuuuuuuuuusing time  
Orbit round the wooooooooooooorld  
The wooorld the wooorld the wlllorld  
The middlllle of our minds  
Groove is where you find it  
Takes time to realize it  
Move in to the middlllle of your mind  
Space is still colliding  
Face what you've been hiding  
Groove is in the middlllle of your mind  
Of your mind
