I met you at the club that night  
where i was spinning records  
and my heart said  
hey now  
hey now  
hey now  
hey now  
yaaaow

you said you were pleased to meet me  
through the sweet smell of your perfume and  
blew me  
away now  
away now  
away now  
away now  
yaaaow

later on that week we went out,  
talked under the stars until the next  
day now  
day now  
day now  
day now  
yaaaow

you drank your fruitopia  
and we never ran out of things to  
say now  
say now  
say now  
say now  
yaaow

every minute im not with you  
i hope ill see you soon  
theres just something that happens  
when you walk into the room

and instantly i feel so complete  
it hits me right about the time you kiss my cheek

and you give me this feeling  
its like no other feeling  
but it knocks me off my feet

please dont ask me what i like about you  
cause its every little thing you do  
and thats just the way you make me feel

and i dont think  
that there are any others out there like you  
and i wont blink cause that would mean  
i would miss a second beside you

and maybe you know what i mean  
or maybe this is just a dream  
i pinch myself just to make sure  
but im still here and there you are  
i wonder why we just met now  
it just kind of happened somehow  
but here we are together and  
thats all that matters in the end

and instantly i feel so complete  
it hits me right about the time you kiss my cheek  
and you give me this feeling  
its like no other feeling  
but it knocks me off my feet

please dont ask me what i like about you  
cause its every little thing you do  
and thats just the way you make me feel

you can never ask for too much  
cause I'd travel the world just to feel your touch and  
thats just the way you make me feel
