Here we are, in the best years of our lives
With no way of knowing, when the
Wheel stop spinning 'cause
We don't know where we're going

And here we are, on the best day of our lives
And it's a go, lets make it last, so cheers you
All to that, 'cause this moment's never comin' back

I used to know her brother
But I never knew I loved her
Till the day she laid her eyes on me
Now I'm jumpin' up and down
She's the only one around
And she means every little thing to me

I've got your picture in my wallet
And your phone number to call it
And I miss you more whenever I think about you
I've got your mixed tape in my walkman
Been so long since we've been talkin'
And in a few more days we'll both hook up
Forever and ever

And here I am, on the west coast of American
And I've been tryin' to think for weeks of all the ways to
ask you
And now I've brought you to the place
Where I've poured my heart out, a million times
For a million reasons, to offer it to you
I used to know her brother
But I never knew I loved her
Till the day she laid her eyes on me now
I'm jumpin' up and down
She's the only one around
And she means every little thing to me

I've got your picture in my wallet
And your phone number to call it
And I miss you more whenever I think about you
I've got your mixed tape in my walkman
Been so long since we've been talkin'

And in a few more days we'll both hook up
Forever and ever

I used to know her brother
But I never knew I loved her
Till the day she laid her eyes on me.
Now I'm jumpin' up and down
She's the only one around
And she means every little thing to me

I've got your picture in my wallet
And your phone number to call it
And I miss you more whenever I think about you
I've got your mixed tape in my walkman
Been so long since we've been talkin'
And in a few more days, we'll both hook up
Forever and ever
